There are various portable record players that have been available through the years.

You had the Columbia GP-3, Audio Technica's VP96, vintage Portables no longer available today except the SOUNDWAGON.

Introduced back in the 70s, the SOUNDWAGON is the only record player still in existence today.

Of course you have the Handy Trax (Vestax Corporation) or others, but come on...they're not even half as cool.

REMEMBER it isn't the real thing if it's not a SOUNDWAGON.
